TTEMS AT THE COURTS.

A native was fine \$20 or 14 days' im. prisonment by Mr J. R. Wood, at the Magistracy to-day for having in his possession a razor blade usually used by the Chinese for cutting the pockets of those whom they intend to rob.

Evidence was taken before Mr E. R. Hallifax, at the Magistracy to-day, in the case in which a number of men were arrested by a P.C. and a Chinese detective on a charge of armed robbery. They were arrested in Stanley Street, Shaukiwan, with choppers and a quantity of clothing in their possession and it was believed they were concerned in no less than three armed robberies.

It is said that some people were robbed of considerable

actions. Early on New Year's day Viceroy Yuen and suite repaired to the Emperor's Temple where the Imperial Tablets are kept and there performed the ceremony of sacrificing to the manes of the lately deceased Emperor and Dowager Empress.

DEATH OF FATHER DE SOUZA.

There died at Malacca, on January 28, at the good old age of 85 years, the Rev. Maximilian de Sousa. By his death s familiar figure is removed from that experient city where he laboured for over 40 years. The deceased gentleman, was ordained priest at Penang 45 years ago, after which he came on to Singapore where he remained. till the year 1876 when he was transferred to Malacca. Father de Souza was the last link of the old de Souza family; he survived his brothers, of whom there were seven and an only sister. He has a crowd of nephews and nieces in Singapore to mourn his loss; 'swo of the former are in the medical profession and four in the Government service.

ENGLISH SHIPBUILDING

From Mr J. Lambert, Lloyd's Surveyor. we have received the quarterly returns of shipbuilding up to the 31st December. 1909. At that date there were 331 vessels, of 913,374 tons gross under construction in the United Kingdom. This is 135,000 tons more than was in hand at the end of 1910. last quarter and about 149,000 tons more than was building twelve months ago.

Of the vessels under construction in the United Kingdom at the end of December 250 of 653,767 tons are under the supervision of the Surveyors of Lloyd's Register with a view to classification by the Society. In addition, 66 vessels of 191,004 tons are building abroad with a view to classification. > In order to push the sale of a new French newspaper published in Berlinsome newsboys were imported from Paris. The Royal Packet Navigation Com DAY, the 28th day of February, 1910, at pany, which is building more steamers to on the Java-Australian line, finds itself hampered by the Netherlands India Government, which is subsidising the venture. The Government lays down the condition that the company must only .use Sumatra coal on the trip. This coal comes from certain Government mines in that island. It is feared that the Australians may take offence at their coals being thus discriminated against, and may boycott the company's steamers.

MACAO NOTES

(From Our Gun Correspondent.)

Macao, February 12. John Chinaman wags his head with an ominous grunt when a soft sunny sky tempered by vernal breezes attends the New Year. Rain and plenty of it should be Fortune's hallmark on an auspicious day; honce the portent for the next twelvemonth is unwelcome. Towards dusk on the Eve streams of holiday-makers drifted in and out of the Rus do Jogo and branch streets while the rattling of dice began echoing slong the interminable line of hazard 70 per cent., Second \$100 and 20 per tables. H. E. The Governor, in company with Lieut. Ruella A.D.C., made a round of the place and relieved himself of some smart tips to underlings at the fantan saloons and elsewhere. At midnight a general deluge of earsplitting crackle burst forthin every direction as the population either repaired to the temples or limited their propitistory rites 2 to their own door-stones. Presumably to ingratiate the fickle Dame the protracted din of firecrackers during the next 36 hours told of more than the wonted yearly con-O sumption. For all that the genial sunshine outstood till Friday when it became mense-

o ingly overcast. On Thussday the native Christians attended a Solemn Divine Service (Mr Johnstone) O at San Lazaro's and the St. Xavisr's band discoursed, throughout, later touring the streets. THE CHINCHOU-AIGUN RAILWAY.

A somewhat longer telegram than that onblished in Hongkong was sent to the N.O. Douly News regarding Great Britain's attisude with reference to the Chinchou-Algun railway. It ran :-

The St. Petersburg correspondent of The Times sends a telegram affirming that Great Britain has called the attention of the Chinese Government to the necessity of consulting Russia and Japan before concluding arrangements for the construction of the Chinchou-Algan line. This mercial circles, where it is felt that this policy will be disserves to the interests both of China and of this country.

It is noticeable that, with two or three exceptions, practically the whole of the British Press, irrespective of political prediscrione, favours the nonetruction of the proposed line. The Dally News blantly decision that Japan's obvious intention is the destruction of China's sovereignty in Manchuris. This, the Liberal paper adds. will be the seed of much trouble in the Far East, and it gravely questions whether such policy is wise. There can no longer be any protence that Japan want to war with Russis to proserve Uhina s integrity.

The Glargow Herald complains that Japan is blocking colonization by China. The whole matter will be brought before the House of Commons at the earliest possible data In the meantime exasperation at Japan'

methods continues to grow in the United States, where it is regarded as evident that Japan intends to flout the "open door" principle, while pretending to be in favour of its maintenance. Coming so soon after the rejection of Ma signed to the Changel for the night while Knoz's proposal to tentralize the Manchurian Railways, the stoppege of the Chinchdi-Aigun schema would compa! Pro-

kicked on the football field. It was a very had would about three inches in length. I did not take much notice of it at first but about a week after it it at first but about a week arter is started gotting very painful and swollen. I went to the doctors but after they had tried one thing and the other. I got tired of attending them, so I thought I would try to cure it myself. That was after about two months of their treatment. Well, I tried different ointment. Well I tried different ointments but all to no use. At last a friend of mine styled me to try the friend of mine styled me to try the friend of mine styled. Outlours Remedies, so I purchased a. chemist and in about five days the leg showed signs of improvement. The swelling went down and all the matter swelling went down and all the matter and stuff came out quite fast. I mention that my leg (it was across the shin I had the sick) was about three times its usual size. So I kept on with Cuticura Cintment and I tried Cuticura Soap to cleanse the wound with. After that it healed up quite fast and is quite well at the present time. I had two boxes of the Cuticura Cintment and I still use the Cuticura Soap which I find is the best I can get, as it makes one feel so fresh after a hard game of football and I will recommend it to all my friends.
